

## St Winefride's Catholic Primary School

### Teaching and Learning Policy

#### **1 Introduction**

- 1.1 At St Winefride's School we believe in the concept of lifelong learning and the idea that both adults and children learn new things every day. We maintain that learning should be a rewarding and enjoyable experience for everyone; it should be fun. Through our teaching we equip children with the skills, knowledge and understanding necessary to be able to make informed choices about the important things in their lives. We believe that appropriate teaching and learning experiences help children to lead happy and rewarding lives.

#### **2 Aims and objectives**

- 2.1 We believe that people learn best in different ways. At our school we provide a rich and varied learning environment that allows children to develop their skills and abilities to their full potential.
- 2.2 Through our teaching we aim to:
- enable children to become confident, resourceful, enquiring and independent learners;
  - foster children's self-esteem and help them build positive relationships with other people;
  - develop children's self-respect and encourage children to respect the ideas, attitudes, values and feelings of others;
  - show respect for all cultures and, in so doing, to promote positive attitudes towards other people;
  - enable children to understand their community and help them feel valued as part of this community;
  - help children grow into reliable, independent and positive citizens.

#### **3 Effective learning**

- 3.1 We acknowledge that people learn in many different ways and we recognize the need to develop strategies that allow all children to learn in ways that best suit them. These areas of intelligence include linguistic, logical/mathematical, visual/spatial, kinaesthetic, musical, interpersonal/group working, and interpersonal/reflective. We try to take into account these different forms of intelligence when planning teaching and learning styles.
- 3.2 We offer opportunities for children to learn in different ways. These include:
- investigation and problem solving;
  - research and finding out;
  - group work;
  - pair work;
  - independent work;
  - whole-class work;
  - asking and answering questions;
  - use of the computer;
  - fieldwork and visits to places of educational interest;

## Teaching and Learning Policy

- creative activities;
- watching video clips and responding to musical or recorded material;
- debates, role-plays and oral presentations;
- designing and making things;
- participation in athletic or physical activity.

3.3 We encourage children to take responsibility for their own learning, to be involved as far as possible in reviewing the way they learn, and to reflect on how they learn – what helps them learn and what makes it difficult for them to learn.

### **4 Effective teaching**

4.1 When teaching we focus on motivating the children and building on their skills, knowledge and understanding of the curriculum. We use the school curriculum plan to guide our teaching. This sets out the aims, objectives and values of the school and details what is to be taught to each year group.

4.2 We base our teaching on our knowledge of the children's level of attainment. Our prime focus is to develop further the knowledge and skills of the children. We strive to ensure that all tasks set are appropriate to each child's level of ability. When planning work for children with special educational needs we give due regard to information and targets contained in the children's Individual Education Plans (IEPs). We have high expectations of all children, and we believe that their work here at St Winefride's School is of the highest possible standard.

4.3 We set academic targets in literacy and numeracy for the children in each academic year and we share these targets with children and their parents. We review the progress of each child at the end of the academic year and set revised targets.

4.4 We plan our lessons with clear learning objectives, lesson progression and plenary. We take these objectives from the National Curriculum or Here I Am documentation. Our lesson plans contain information about the tasks to be set, the resources needed, and the way we assess the children's work. We evaluate lessons so that we can modify and improve our teaching in the future. The plenary is an important and essential part of the lesson which draws together work covered. The plenary extends knowledge, reinforces learning objectives or new ones to be covered the following session.

4.5 Each of our teachers makes a special effort to establish good working relationships with all children in the class. We treat the children with kindness and respect. We treat them fairly and give them equal opportunity to take part in class activities. All our teachers follow the school policy with regard to discipline and classroom management. We set and agree with children the class code of conduct. We expect all children to comply with these rules that we jointly devise to promote the best learning opportunities for all. We praise children for their efforts and, by so doing, we help to build positive attitudes towards school and learning in general. We insist on good order and behaviour at all times. When children misbehave we follow the guidelines for sanctions as outlined in our school behaviour policy.

4.6 We ensure that all tasks and activities that the children do are safe. When we plan to take children out of school, we first inform parents and obtain their

## Teaching and Learning Policy

permission. All out of school visits are prepared with the help of the school's Education Visits Co-ordinator.

- 4.7 We deploy teaching assistants and other adult helpers as effectively as possible. Sometimes they work with individual children and sometimes they work with small groups. Our adult helpers also assist with the preparation and storage of classroom equipment. Areas outside the classroom are utilised as part of the learning environment.
- 4.8 Our classrooms are attractive learning environments. We change displays once a term, to ensure that the classroom reflects the topics studied by the children. We ensure that all children have the opportunity to display their best work at some time during the year. All classrooms have a range of dictionaries and fiction and non-fiction books, as well as displays relating to literacy and numeracy. We believe that a stimulating environment sets the climate for learning, and an exciting classroom promotes independent use of resources and high-quality work by the children.
- 4.9 All our teachers reflect on their strengths and weaknesses and plan their professional development needs accordingly. We do all we can to support our teachers in developing their skills, so that they can continually improve their practice.
- 4.10 We conduct all our teaching in an atmosphere of trust and respect for all.

## 5 The role of parents

- 5.1 We believe that parents have a fundamental role to play in helping children to learn. We do all we can to inform parents about what and how their children are learning by:
- holding parents' evenings to explain our school strategies for teaching literacy and numeracy;
  - sending information to parents at the start of each term in which we outline the topics that the children will be studying during that term at school, the curriculum map;
  - sending annual reports to parents in which we explain the progress made by each child and indicate how the child can improve further;
  - explaining to parents how they can support their children with homework. We suggest, for example, regular shared reading with very young children, and support for older children with their projects and investigative work.
- 5.2 We believe that parents have the responsibility to support their children and the school in implementing school policies. We would like parents to:
- ensure that their child has the best attendance record possible;
  - ensure that their child is equipped for school with the correct uniform and PE kit;
  - do their best to keep their child healthy and fit to attend school;
  - inform school if there are matters outside of school that are likely to affect a child's performance or behaviour at school;
  - promote a positive attitude towards school and learning in general;
  - fulfil the requirements set out in the home/school agreement.

## 6 Monitoring and review

## Teaching and Learning Policy

- 6.1 We are aware of the need to review the school teaching and learning policy regularly so that we can take account of new initiatives, changes in the curriculum, developments in technology or changes to the physical environment of the school.
